Professional Summary

Senior Full Stack Web Developer with 7+ years of experience architecting and delivering enterprise-grade web applications, SaaS platforms, and e-commerce solutions. Skilled in **Laravel, PHP, MySQL, and API integrations** with strong expertise in **multi-tenant systems, approval workflows, inventory management, and real-time dashboards**. Adept at leading cross-functional teams, implementing scalable architectures, and optimizing platform performance. Passionate about building user-focused digital platforms that drive business growth.

Skills

- **Backend Development:** PHP, Laravel (Filament/Flux), CodeIgniter, Drupal
- **Frontend Development:** HTML5, CSS3, JavaScript, jQuery, SCSS, Component-based architecture
- **Database Design & Optimization:** MySQL, MariaDB, PostgreSQL, relational modeling, indexing
- **APIs & Integrations:** RESTful APIs, Webhooks, Zoom, Cisco Webex, SendGrid, Mixpanel, 3PL APIs
- **System Architecture:** Multi-tenant SaaS, e-commerce workflows, approval systems, role-based access
- **Real-Time & Search:** WebSockets, Redis caching, Typesense/search implementation
- **Analytics & Reporting:** GA4, GTM, Looker Studio, reporting dashboards
- **DevOps & Collaboration:** Git, CI/CD, Agile (Scrum/Kanban), Jira, Microsoft Teams
- **Cloud:** AWS, Azure, Power Automate

Work Experience (7+ years)

Web Developer
Ultra Fast Trucking, London, Ontario | Jan 2024 – Current

- Designed and maintained internal web platforms for **logistics and operations management**.
- Integrated APIs for **real-time dispatch tracking, notifications, and dashboards**.
- Implemented **responsive, role-based systems** to improve internal workflows.
- Developed admin tools to support non-technical staff in data entry and reporting.
- Applied **Redis caching and MySQL optimizations** for performance improvements.
- Created **real-time dashboards** with KPIs for fleet utilization, order tracking, and delivery timelines.

- Improved system **security and data protection** by implementing secure authentication and access control.
- Worked directly with management to **translate operational needs into technical solutions**.

Sr. Web Developer / Technical Lead
MediVisual Healthworld, Mohali, India | Mar 2020 – Dec 2023

- Led development of **multi-tenant web platforms** with Laravel and Drupal.
- Designed **approval workflows, role-based access control, and reporting dashboards**.
- Built scalable e-commerce solutions with **complex catalogs, order management, and payment gateways**.
- Integrated APIs (Zoom, Cisco Webex, SendGrid, Mixpanel) to automate workflows.
- Applied **security best practices** (authentication, authorization, data encryption).
- Mentored junior developers, conducted code reviews, and led sprint planning.
- Implemented **Redis caching and database indexing** to handle large traffic volumes.
- Developed **health monitoring and alert systems** for platform uptime.
- Delivered **analytics dashboards** with exportable reports for internal teams.
- Collaborated with business stakeholders to **define technical architecture aligned with business goals**.

Software Developer, PHP
Igxact Soft Technologies Pvt. Ltd., Mohali, India | May 2019 – Mar 2020

- Built LMS portal features in Laravel with **multi-role access and reporting**.
- Integrated third-party APIs and created reusable front-end components.
- Conducted QA, cross-browser testing, and debugging for scalable releases.
- Designed relational database schemas in MySQL to support learning workflows.
- Worked on **RESTful API integrations** for payment gateways and course tracking.
- Optimized **performance with caching strategies and DB query refinements**.
- Implemented **notification systems** (email/SMS) for students and instructors.

Jr. Web Developer
Amonous Technologies Pvt. Ltd., Mohali, India | Sep 2017 – May 2019

- Developed **Drupal and Shopify sites** including custom modules and theming.
- Enhanced performance using **Cloudflare load balancing and caching strategies**.
- Delivered WCAG-compliant, mobile-responsive solutions.
- Created **custom plugins and Shopify API integrations** for e-commerce workflows.
- Supported cross-functional teams with **content migration and intranet support**.
- Built reusable **front-end components** in JavaScript/jQuery to reduce development time.
- Managed **version control with Git** and collaborated with designers to refine UI/UX.

Education summary

Cloud Data Management
Conestoga College, Doon Campus, Kitchener, ON
2024 – 2025

Bachelor of Technology in Computer science and Engineering
Guru Jambeshwar University, Hisar, India
2011-2015

Abilities

- Critical thinker with six years' experience in identifying software issues and debugging code to approach problems analytically
- Team leader necessary to lead a team of junior programmers and facilitate an open, communicative work environment while delegating roles efficiently to the strongest suited colleagues
- Proficient in coding language, certified in PHP, and fluent in many major coding languages such as HTML, JavaScript, jQuery and more
- Detail-oriented with great attention to detail to avoid coding mistakes
- Efficient time management to meet strict deadlines when developing startup website, requiring efficient use of time and resources

Projects

Terumo India Skill Lab | Laravel, MySQL, Zoom/Cisco API →
https://terumoindiaskilllab.com/
Built a webinar management platform integrated with video conferencing and email automation (SendGrid/Mailchimp).

Medznat | Laravel, PHP, MySQL → https://www.medznat.ru/
Developed a medical knowledge-sharing platform for healthcare professionals. Optimized DB performance, implemented content workflows, and integrated analytics to improve engagement.

Terumo India Website | Drupal, MySQL → https://terumoindia.com/
Developed and maintained official corporate website with scalable CMS features, security improvements, and performance optimization.

Maxirich | Laravel, MySQL → https://www.maxirich.com/
Developed and optimized Laravel-based platform with **custom workflows and scalable product catalogs**.

Derma Essentia (eCommerce) | Wordpress → https://www.dermaessentia.com/
Built and optimized wordpress-based eCommerce store with payment/shipping integration and SEO.

FourJune (E-commerce) | Shopify → https://fourjune.com/
Designed and customized a Shopify-based online store, implementing **product workflows, custom themes, secure checkout, and third-party integrations** to optimize the customer shopping experience.
